(SUBMISSION ON)

public ~~inquiry~~ patents +
experimental-use.

Dear Sir / Maddam :

Yes = I think a. experimental-use exception.
provision is a very good idea (5)
in relation to opening up a more.
stable and free flowing of Ideas in
regards to Intellectual patenting.

I think the idea of patenting everything
is getting a little bit out of hand.
(what happened to the community / society
spirit. I am sure it's still there).

If it costs money for researchers to
do research on just basic ideas.
then science will be the less for it.
(not good)

IP Australia

16 DEC 2003

I do know it's a complex issue and patented
regulations are needed but let us not
go = patent Crazy / yes!!

Thank you for your time ~~Mr.~~

yours sincerely / P. A. Evans
