Subject: Re: Innovation Patents & plants and animals

23/07/2002 03:13 PM

Dear Mr Roberts

I refer to a letter dated 2 July from Mr Malone to Mr James Langridge seeking the University's views on the exclusion of plant and animal subject matter from the innovation patent.

This letter was passed to Professor Margaret Sheil, Pro-Vice-Chancellor (Research) and I am able to advise that the University has no problems with the exclusion of plants and animals from the innovation patent.

Regards

Penny
